Welcome to Our Creative World

Flowers have always been at the heart of what we do, but for us, they're just the beginning.

We love exploring unexpected ways to bring flowers, foliage and natural materials into our homes, what we wear and the celebrations we share.

In these pages, we've gathered a few of our favourite ideas, simple tips and creative discoveries. We hope they'll encourage you to look at flowers a little differently and perhaps spark an idea or two of your own.

Happy creating!

Beyond The Vase

Paint A Little Personality

The beautiful shapes of Monstera leaves make wonderful natural canvases. Try adding a few decorative details with suitable paints to transform a simple leaf into something quite special.

A Second Life for Leaves

Before you discard ageing foliage, take another look. Aspidistra leaves can develop wonderful autumnal colours and textures as they dry, giving them a completely new character.

Sometimes all it takes is a little imagination to see familiar plant materials in a different light.

A Rosy Glow

A Little Beauty Inspired by Flowers

Take your inspiration from the delicate shades of rose petals.

A touch of cream blush in soft rose or peach, gently blended onto the cheeks, can give your complexion a fresh, natural glow.

Choose a shade that complements your skin tone.

For an extra little sparkle, try the tiniest touch of highlighter at the inner corners of your eyes to bring a little brightness to your look.

Sometimes the simplest touches
make the loveliest difference.

A Fresh Take on Flowers

Sometimes the most unexpected ingredients
can create the most beautiful designs

Not Just for Eating

Who says wreaths have to be made with flowers? Louise created this wonderfully colourful design using winter vegetables, celebrating their fascinating shapes, textures and colours. A little reminder that inspiration can be found in the most unexpected places — even the vegetable aisle!

But Also For Celebrating

Flowers have a wonderful way of making special occasions even more memorable. Created for a golden 50th birthday celebration, this arrangement brings together sunny yellows, soft peach tones and playful natural forms to add a little magic to the occasion.

Because flowers are for every occasion

Flowers to Wear

Because flowers don't always have to stay in a vase.

From a delicate floral bracelet to an elaborate botanical creation, fresh flowers can become beautiful, personal accessories.

Sometimes the most unexpected ideas are the most exciting.

Next time you're admiring a flower,
imagine where else it might belong.

Keep Creating With Us
